Box No. II sheet)	the state of the s
This international reasons:	tional search report has not been established in respect of certain claims under Article 17(2)(a) for the following
1.	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely: Please See Continuation Sheet
2.	Claims Nos.: 2-37 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3 6.4(a).	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule
Box No. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
	ional Searching Authority found multiple inventions in this international application, as follows:
2.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.  As all searchable claims could be searched without effort interfering or additional for the text of the searchable claims.
3.	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.  As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4.	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on P	The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.
	La procest accompanies the payment of additional search lees.

Box II Observations where certain claims were found unsearchable 1. because they relate to subject matter not required to be searched by this Authority, namely:  In claims 2-37, numerous variables (e.g., Rs, X, Y, 2 etc.), their voluminous involved meanings, their large number of permutations and combinations and the provisor in the claims make it virtually impossible to determine the full scope for which protection is sought. As presented, the claimed subject matter cannot be regarded as being a concise description for which protection is sought and as such, the claims do not comply with the requirements of PCT Article 6. Thus, it is impossible to carry out a meaningful timely search on same. A search will be provided on the first discernable invention which is Example 1 found on page 30 of the specification that is embraced by instant Claim 1.
